

GENEALOGICAL CHARTS

The superscript numerals following different character names represent crossreferences to other charts. Appearances of Zeus in these charts (see 2, 4, 5, 8a-f, 9, 12, 15-18, 20, 21, 22) are so frequent that they have not been noted. Apollodorus and Hesiod have been favored over other sources but absolute consistency cannot be achieved given the variations and gaps in ancient sources.
